Trident Academy of Technology	**June 2019 − April 2023**
B-Tech in Computer Science and Engineering • CGPA: 8.54	*Bhubaneswar, India*

Certifications

Full Stack Development	Internshala Certificate

Experience

Clapgrow Technologies   **Aug 2025 − Present**

Developer cum Consultant

- Built comprehensive Frappe ERP software for RK Honda, developing customized doctypes, fields, and scripts to streamline business operations from purchase orders to invoices and damage assessment.
- Developed a custom application to track Frames received from Honda, implementing end-to-end workflow management from purchase order creation through invoice generation and damage assessment processes.
- Conducted client calls and meetings to gather requirements, analyze business needs, and translate them into technical specifications for implementation.
- Created and customized print formats, client scripts, and automated workflows to enhance user experience and optimize business processes.

Maison Technology Pvt Ltd, Bhubaneswar   **Oct 2024 − Aug 2025**

Web Development Apprenticeship

- Built responsive and dynamic web pages using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser compatibility.
- Led implementation of user-friendly designs and collaborated with the development team to troubleshoot and optimize front-end performance.
- Worked on live client projects, including New Beginnings, JP Construction, and Green Growth.

Tech Mahindra, Bhubaneswar   **Jul 2023 − Apr 2024**

Technical Desk Support

- Handled customer queries and resolved issues related to orders, payments, and returns efficiently via email and chat.
- Making soft calls to the customers to understand complex issues on their orders to guide them to the correct department.

- Maintained accurate records of interactions and collaborated with cross-functional teams to address escalations and improve service processes.

Projects

Event Management System | *Node.js, Express.js, MongoDB, JavaScript, HTML, CSS*   **Dec 2024 − Jan 2025**

- Developed a full-stack event management system with JWT authentication, event discovery, ticketing, and attendee engagement features. Designed a dashboard for organisers to track registrations and ticket sales.

ShoppyGlobe E-commerce Platform | *Node.js, Express.js, React, MongoDB*   **Nov 2024 − Dec 2024**

- Developed a scalable backend with RESTful APIs for authentication (JWT), product management, and cart functionality. Built a responsive frontend with React, Redux, and React Router for smooth navigation and secure checkout.

Weather Application System | *JavaScript, OpenWeatherMap API, HTML, CSS*   **Sep 2024**

- Built a dynamic weather app using OpenWeatherMap API with responsive 5-day forecast, icons, and optimised UI.

Portfolio | *HTML, CSS, JavaScript*   **Aug 2024**

- Engineered a responsive portfolio with intuitive design, optimised navigation, and animations for seamless interaction.
